

Success Stories

Enabling Insurance Startups

Critical Business Challenge

A start up company needed a trustworthy, reliable Insurance Platform with full policy administration and IT support capability.

Quess GTS managed the entire transition of operations from in-house team to global delivery operations team including knowledge transfer, creation of SOP, definition of SLAs, and steady state operations.

Facilitated Premium Growth

Partnership

Support of Underwriting, Claims, Treasury, Premium Audit and Finance operations for Commercial Casualty, Commercial Excess and Surplus, Commercial Umbrella, Professional liability, Commercial Surety, Personal Auto, Property insurance, and Employer Stop Loss (ESL) lines of business under a Global delivery model.

Solution

- Implemented our Integrated Insurance Platform in 120 days
- Implemented our Book of Record “single source of truth” data repository
- Integrated with Carriers
- Configured additional products and services
- Provided Managed Services for application and infrastructure support
